HEC Paris | Fall 2026

Exchange Programme

Business Analytics Using Python; Digital Assets and Blockchain; Innovation and Digitalization in Finance; Valuation of Financial Institutions.

HEC Paris Summer School | 2025

FinTech Programme | Grade A, 5 ECTS

Wycombe Abbey School, United Kingdom | 2021-2023

A-levels: Mathematics (A*), Further Mathematics (A*), Biology (A*), Chemistry (A*).

Research and Professional Experience

HKUST Business School | June 2026-present

Research Assistant Intern

- Developed a matched historical framework comparing dot-com equity speculation and telecom infrastructure investment with contemporary AI investment in models, semiconductors, data centres, and power infrastructure.
- Built source-backed annual datasets and examined AI infrastructure and private-credit financing through financial statements, debt contracts, special-purpose vehicles, collateral, and refinancing risk.
- Developed empirical research designs, including event studies, cross-sectional exposure measures, and price-performance analysis. These are research designs rather than established causal findings.

Shenzhen Stock Exchange | January-February 2026

Research Group Intern, Derivatives Department

- Researched ETF liquidity-risk transmission, liquidity mismatch, and market microstructure during periods of market stress.
- Authored a research report on derivatives-market stability and ETF risk propagation for internal regulatory review.

Earlier Professional Experience

China Life Investment Management Company Ltd. | November-December 2023

Intern, Data Processing Office, Department of Investment Operations

- Contributed to data governance and analysis for investment operations, and wrote reports on asset-management digitisation and industry standardisation.

University of Manchester and University of Durham | July-August 2022

Summer Laboratory Intern, Biomedicine and Chemistry

- Collected and analysed experimental data, including concentration and incubation-time variables in cell testing; processed results using Excel and statistical software, including Stata and R.

Bank of China Limited, London Branch | July-August 2021

Summer Intern, Research Department

- Assisted with data collection and processing, and researched and produced seasonal ESG reports.

Selected Writing Contributions

- Contributed to *Practical Exploration of Standardization of Insurance Asset Management Industry and Data Governance in G Company under the Digital China Strategy*, China Standardization, March 2024.
- Co-authored the literature review *Photocatalytic Degradation of Some Typical Antibiotics: Recent Advances and Future Outlooks*, International Journal of Molecular Sciences, July 2022.

Activities and Selected Awards

- TEDxTHU English Speaker Coach (2026); Tsinghua University Baiyang Broadcasting and Hosting Project (2025-2026); Tsinghua University Choir, Alto (2025-2026); Tsinghua University Symphony Orchestra, Flute (2024-2025).
- First Prize, 30th China Daily 21st Century Cup National English Competition, Tsinghua Session (2025).
